ULTROID:

Hemorrhoidal Disease (HD) affects over 75% of people in the United States at some point in their lives and an estimated 50% of those over the age of fifty have hemorrhoids. Until **Ulroid**, patients with HD would be given topical creams or referred to specialists. Now you can keep these patients and the reimbursements with a procedure that takes less than ten minutes. It's simple, easy to use, pain-free and a permanent solution to a very common disease that's walking in your office every day.

With **Ulroid**, there is no upfront investment and training is provided at no additional cost. **Ulroid** is the only device on the market cleared by the FDA for the curing of all four grades of HD. The breakthrough technology produces a natural chemical reaction within the hemorrhoid causing the elimination of HD. **Ulroid** is a successful tool that works for your business. So what are you waiting for? Ask your representative about **Ulroid** and how it can work for your practice.
